ABOUT ME

I am a Full Stack Software Engineer with over two years of professional experience designing and building scalable web applications. My core expertise lies in Java Spring, Node.js, React, and PostgreSQL. I have a strong focus on backend architecture and database query optimization, combined with the ability to deliver seamless frontend experiences. I enjoy collaborating in agile teams to solve complex technical challenges and build reliable, efficient software.

SKILLS

Technical Expertise

Java / Spring Boot / Node.js / Express.js / JavaScript / TypeScript / React / SQL / MySQL / PostgreSQL / MongoDB / Redis / Tailwind CSS / Swagger / RESTful APIs / Docker / Microservices

Tools

Git / GitHub / Postman / IntelliJ IDEA / VS Code / DBeaver / Jira

WORK EXPERIENCE

INTELLEON

SOFTWARE ENGINEER

[01/03/2026 – Current]

- Developed full-stack features for multiple client applications using **React, Node.js, and Express**, ensuring scalable architecture and consistent code structures across codebases.
- Built a comprehensive service management platform featuring a **WhatsApp** messaging module, admin dashboard, and product inventory, actively participating in early technical design discussions.
- Engineered a lightweight property booking system with **React and Tailwind CSS**, prioritizing fast page load times and a seamless frontend user experience.
- Designed and documented RESTful APIs using **Swagger** for **PostgreSQL** and **MySQL** databases, contributing to team discussions on schema design and data architecture.
- Performed backend query tuning to reduce execution latency, and collaborated with the team to maintain clean code practices for long-term maintainability.

INTELLEON

ASSOCIATE SOFTWARE ENGINEER

[01/09/2024 – 01/03/2026]

- Implemented end-to-end full-stack features for an Australian SME loan application platform, engineering scalable backend services with **Node.js (Express)** and robust data models in **PostgreSQL**.
- Integrated **Redis** for efficient session management and API response caching, which significantly reduced data retrieval times and enhanced performance across high-frequency transaction workflows.
- Conducted extensive refactoring of complex database queries and API endpoints, minimizing server payloads and ensuring fast, stable response times during peak application usage.
- Built highly dynamic and responsive UI components using **React and Tailwind CSS**, focusing on delivering intuitive loan application forms and interactive client management dashboards.
- Participated actively in Agile sprint planning and execution, delivering feature updates for secondary web projects while resolving technical bugs to maintain strict code reliability.
- Collaborated with cross-functional teams to review code, enforce clean development practices, and ensure seamless frontend-backend integrations across multiple active project environments.

SOFTWARE ENGINEER INTERN

[01/03/2024 – 01/09/2024]

- Participated in code-level development and system architecture reviews for an internal desktop application built using **Electron with React**.
- Implemented modular task-tracking features and user management interfaces according to project action plans and team requirements.
- Assisted in designing structured **MySQL** database schemas to handle application state, task assignments, and user schedules efficiently.
- Contributed to full-stack debugging, API integration, and manual testing cycles while following senior developer guidance and clean code standards.
- Conducted system refactoring and code optimization tasks to gain hands-on experience with scalable desktop and web application architecture.

ZIGO PVT LTD

IT ASSISTANT

[01/01/2021 – 31/12/2021]

- Managed daily IT inventory operations, including accurate stock-in/stock-out tracking and documentation for hardware components.
- Provided hands-on technical support for staff, troubleshooting basic software, hardware, and network connectivity issues.
- Assisted in workstation setups, OS installations, and routine system maintenance to ensure smooth daily operations.

EDUCATION AND TRAINING

BSc (Hons) in Computing (Top-Up)

Wrexham University, United Kingdom (Londontec City Campus) [01/02/2026]

City: Nugegoda | Country: Sri Lanka | Website: www.londontec.lk

Graduate Diploma in Software Engineering (GDSE)

Institute of Software Engineering (IJSE) [01/01/2022 – 30/12/2023]

City: Panadura | Country: Sri Lanka | Website: www.ijse.lk

LANGUAGE SKILLS

Mother tongue(s): SINHALA

Other language(s): ENGLISH - PROFESSIONAL WORKING PROFICIENCY | JAPANESE - NAT-TEST N4 Certified (N3 Reading Level)

RECOMMENDATIONS

Name: Mr. Shaan Mendis | Senior Software Engineer – Ican Lanka

Technical mentor who can vouch for my software engineering practices, backend architecture skills, and problem-solving abilities in production projects.

Email: shanmendia98@gmail.com | Phone number: (+94) 768631988

Name: Gimhani Chathurangani | Commercial Executive – Bureau Veritas Lanka (Pvt) Ltd

Professional referee who can attest to my work ethic, communication skills, and effective cross-functional team collaboration.

Email: chathuranganigimhani@gmail.com | Phone number: (+94) 712931577

I am committed to delivering secure, efficient, and scalable IT solutions while continuously enhancing my knowledge and contributing to team success. I thrive in dynamic environments and bring a strong blend of technical expertise, problem-solving ability, and collaborative spirit to every role I undertake.
